RUMORED CONFESSION

OF KNOWLEDGE OF MURDER

Lilgie, held at Fort Saskatchewan reported to have confessed knowledge of and complicity in, Leslie's murder.

A story has been current in Fort Saskatchewan several days and has spread to the city to the effect that Lilgie, the man held at the R.N.W.M.P. barracks there on suspicion of connection with the death of Wm. Leslie, has confessed and implicated Mr. Holme, postmaster at Bruderheim.

It will be remembered that some time since the store of Leslie at Bruderheim was destroyed by fire and what were supposed to be the remains of the owner found in the debris. It was at first supposed that the man had been smothered by the smoke when asleep. After a time however suspicions were aroused and Lilgie and Gram, two neighbors were arrested on suspicion of knowing something of the affair. Nothing belonging to the dead man however was found on the premises of the prisoners. A few days since Gram was released but Lilgie was retained.

According to the rumors prevalent the story of Lilgie is to the effect, he went to the store in question some time during the night it was burnt and discovered Holme there. Leslie was lying on the floor shot through the body. Holme threatened Leslie with the consequences of informing but offered to let him take what he wanted in return for keeping silence. Lilgie helped him to several articles and the store was set on fire to hide the crime.

Whether this be the correct story or not the police are known to have gone to the farm of Lilgie on Wednesday of this week, taking the prisoner with them. After searching here they went to the farm of Holme and arrested him, also making a search of the premises. The latter search was unsuccessful but the former is said to have resulted in the recovery of many articles known to have belonged to the missing man among others a quantity of underclothing, three watches and \$150 in cash. Nothing substantiating the accusation made against him was found on the premises of Holme.

One of the watches it is said was recovered from the furnace of a threshing engine. As Lilgie was at the engine at the time of his arrest the assumption is that he had been wearing the watch and threw it into the furnace to avoid being taken with it on him.

The police are working on the matter and decline to give out any information concerning the affair.

RUSSIA HEDGING

ON REPORTS FROM FAR EAST

War Office claims Kurapatkin's line of retreat is not closed at any rate

St. Petersburg, March 2.—While the Japanese are evidently making progress there is nothing yet to indicate that Field Marshall Oyama will succeed in inflicting a decisive blow even if he forces Gen. Kurapatkin to abandon Mukden. According to reports current which are not however confirmed by the war office the withdrawal of stores and supplies northward from Mukden is already under way. The war office insists that no matter what the result of the action the Japanese have again been too slow and that Kurapatkin has again made sure of his line of retreat. Except the moral effect of another retirement the war office declared that the abandonment of the present winter quarters eliminates a great danger to the health of the army so soon as warm weather sets in. The workmen in all the Russian headquarters of industry are getting very ugly and bad times are expected tomorrow.

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

PARLIAMENT

Ottawa, February 23rd, 1905.

Capital and other Delegations

Now that the autonomy question has taken definite shape there is a great deal of person of the numerous Alberta delegations which have been in Ottawa lately in support of the various claims for the location of the capital of the new province, and in regard to other matters.

Mr. Morin of the Edmonton delegation left last week on a visit to his former home in Ontario; Mayor McKenzie left on Wednesday, after hearing Edmonton named as the provincial capital of Alberta in the Autonomy Bill. He is now visiting Peterborough, Toronto and other points looking into the question of electric energy and telephones. Mr. Cross is still here but goes shortly to Montreal for a few days before starting for home.

The Red Deer delegates, Messrs. George W. Smith, John T. Moore and George W. Green, also remained to hear the first reading of the Bill.

Dr. Aylen and Mr. Shera, of the Fort Saskatchewan delegation in regard to a traffic bridge across the river in connection with the Canadian Northern Railway, have left for home, but Mr. Lee of the delegation remains to close up the arrangements arrived at between the railway company and the North West Government with the sanction of the Federal Government. As the matter stands at present, it is understood that the railway company will give traffic facilities in connection with the railway bridge at an additional cost of \$47,000, which the North West Government will provide.

Another bridge delegation has been here from Saskatoon trying to secure a similar arrangement for a bridge across the south branch at that point. Their difficulty is that the Regina, Qu'Appelle and Long Lake Railway Company, who own the railway, are not in financial circumstances to build the bridge, the Canadian Pacific Railway, who operate the railway will not build it. This being the case, the only thing that remains is to induce the North West Government to build a solely traffic bridge, the expense of which is greater than the Government is inclined to stand. Dr. Wiloughby, editor of the Saskatoon "Phoenix" and Mr. Copland are members of the delegation. When they left Saskatoon for the Grand Trunk Pacific was surveying a crossing of the river at that point, and they have hopes of securing an arrangement with that company if other proposals fail. It was reported that this delegation was following the example of the Alberta delegation and urging the claims of Saskatoon to be the capital of the new district of Saskatchewan. While the delegates plead no guilty to this charge, they will admit if cornered, that Saskatoon is the proper place for the capital of Saskatchewan, and that circumstances point to its ultimately a thing that honor.

Several members of the Calgary delegation are still here but will leave for home shortly; they are Dr. Stewart, C. A. Stewart and C. W. Fisher, M.J.A., for Dan I. Mesrahi, Chiappa, Eberon, Skinner, Major Walker, Mr. Davidson of the Albertan, and others left for home some time ago.

Although Edmonton has been chosen as the provincial capital the Calgary gentlemen express great confidence in the ability of their city to ultimately secure it. No doubt there will be a very exciting struggle, and the vote of the north and south are so nearly balanced that the ultimate result cannot be foretold with certainty.

James Kelly of Calgary, and Dr. Jeffery of the same ambitious city are more recent arrivals. Rumour connects them with possible senatorships or House of Commons seats. The new federal party bill provides of course, for a lieutenant-governor in each of the new provinces and an increase of senate representatives to four. While the appointment of lieutenant-governor must be made

Ross Brothers, Ltd.

Following is one of the many testimonials that speak of the work done by these Filters:—

The Duquesne Chemical Laboratory.

Analytical Chemists and Chemical Engineers, Standard Bldg., 531 Wood St. Pittsburgh, Pa., April 12, 1897.

GENTLEMEN:—Following is the report on the samples of water taken from the regular city supply, and also after it had passed through the Tripoli filter. Two filters were tested in this manner one having just been started and the other having been in use four months. The chemical analysis, made to show animal and vegetable pollution, includes the amount of ammonia, albuminoid ammonia and oxygen required to completely destroy such pollution. The bacteriological analysis is a count of the total number of living microbes in ten ordinary drops of water. This test was repeated in duplicate in case of the filtered samples. The results obtained on analysis as follows:

Water from hydrant.	From old filter.	From new filter.
Ammonia	0.03	0.02
Albuminoid Ammonia	0.20	0.09
Oxygen Consumed	1.64	0.56

The figures represent parts of the impurities in one million parts of water. On cultivation, the hydrant water showed 890 bacteria in ten drops. That from the old filter 0, 2 and 4 in three tests, and from the new filter 3, 3 and 7. The above shows that the number of living microbes present has been reduced 99.6 per cent.; the ammonia is reduced 39 per cent.; the albuminoid ammonia 57 per cent., and the oxygen consumed 64 per cent. by passing through the filter, making the originally very bad water equal in cleanliness and purity to the best spring water. These results cannot be surpassed by any system of filtration with which we are familiar.

Respectfully submitted,

W. E. GARRIGUES CHIEF CHEMIST AND MANAGER.
99.6 per cent. of living microbes eliminated by use of the filter.

The price is from \$3.00 up, the \$3.00 one fits on to any house tap and can be removed in two seconds. They are stone Filters and the stones can be cleaned as easily as any glass tumbler or delf cup. The Gravity filters are only \$4.50 and readily filter water from a pail into any other vessel placed to receive the filtered water. They are small and can be easily packed in a very small space to carry from place to place.

The above is correct cut of the Tap Filter, showing it in operation.

The above is correct cut of the gravity Filter, showing it in operation.

These Filters can only be had in Alberta from ROSS BROS., who are Sole Agents. The Trade supplied.

ROSS BROTHERS, Limited.

PARLIAMENT

Continued from page 2.

Before the provisions of the Autonomy Bill can take effect, there is no such limitation as to the date of appointment of senators. No doubt there will be many pilgrimages and much heart-burning before all the appointments are made.

Eastern Attitude on Autonomy

Matters in the House have been very quiet since the presentation of the Autonomy Bills. There seems to be a general agreement that the presentation was marvellously well made and that the arrangement is such as commends itself to the good judgment of all parties. While Mr. Borden, in his remarks, laid especial emphasis on the land question, the tendency of the press in Ontario is to lay all its emphasis on the school question. In as much as Ontario, as the largest province of the Dominion, had through the Dominion an interest in and control of the lands of the North West, Mr. Borden will never be able to touch a responsive chord in the Ontario mind with his complaint against the retention of the public lands of the North West by the Dominion. It is entirely different on the school question. While Mr. Borden's inclination is not to raise a political storm unless necessity compels; this is a question which appeals especially to the eastern mind. Their interest in it will not cost them anything in money and they have the opportunity to talk on behalf of principles which they themselves do not abide by. Ontario with a separate school system which through the exigencies of provincial politics rather than because of the provisions of the British North America Act, has grown to be an admitted abuse, is quite ready to dictate as to what the Dominion Government should or should not do in the North West.

The North West has demonstrated that it is possible to have separate schools which are not an abuse; which are a concession to religious feeling without being an injury to the cause of education, or an undue burden on the state. Because Ontario has permitted a system which has become a menace to education of a large part of her citizens and as well as become a serious burden on the state, is no reason why the rights of conscience now permitted in the North West should not continue to be respected. Nominally there are no Roman Catholic schools in New Brunswick, Nova Scotia or Manitoba. Actually there are more Roman Catholic schools in each of these provinces than in the North West territories. The difference is that in these three provinces such schools are conducted exclusively to the spirit of the law with the collusion of the law-makers, while in the territories they are conducted according to law and under the direct control of the law-makers.

WHITE WHALE LAKE.

Correspondence.

"There was a very pleasant gathering at the home of Mr. and Mrs. John B. Lent on State street last evening in honor of the 50th anniversary of their wedding. The house was well filled with relatives and friends, among the latter being members of the W. C. T. U. Out of town guests were Mr. Lent's only brother and his wife, from Picton, Ont., and Mr. and Mrs. J. Eugene Lent from Horneville. The presents were many and handsome, among them being a purse of \$30 in gold coin. The house was prettily decorated with cut flowers, hunting and Canadian flags. A poem written for the occasion was read, and the evening was spent with music and social converse."

The above clipping from the Selmanica (N. Y.) Daily News, of February 2nd, refers to the golden wedding of the parents of one of our well-known citizens, Mr. D. H. Lent, J. P., on February 1, 1905. Unfortunately he was unable to attend because of the distance. The parents left Canada to reside in New York state about twenty-five years ago.

On February 20 Mr. Lent took charge of the new school in the Beaufort S. D. No. 850, Onoway P. O. twelve miles east of L. St. Anne. There was a good attendance from the outset. The building is a credit to the district.

A rain fall in February is certainly a great surprise. It reminds us of some features of an Ontario winter.

Also Carr, a nephew of Mr. Lent, from Birle, Man., has dropped in to look for a homestead.

Chief Paul, of the White Whale Reserve, has been most unfortunate. The other day while hauling logs to the mill site he received a compound fracture of the leg.

It is reported that the telephone line is likely to be extended from Steady Plain to Mewassee in the near future. Let us hope the report will prove to be true. Then we may hope for an extension still further.

Croup

Mothers, never be without Hirst's Pain Exterminator in the house. No telling what night croup may attack the baby. With this family medicine handy, there's no danger of losing the little ones.

Hirst's Pain Exterminator

dissolves the phlegm in the throat—heals the inflamed lungs—cures the croupy cough—and sends baby into a natural, healthy sleep. It's a medicine for everybody—young and old. Cures rheumatism, neuralgia, headache, toothache, sprains, bruises, burns—pains of all kinds and any kind.

R.S. JAMES SOUTHERN
OF ST. CLOUD, MINN., WRITES:
"I could not do without Hirst's Pain Exterminator in the house. It is the best medicine for relieving pain that I ever met with. You may judge by the quantity we have used in six years that we have unlimited confidence in it."

THE GUM REMOVED

THE microscope shows each leaf of tobacco is covered with long soft hairs which exude a viscid juice.

This is called the gum, and it covers the surface with a moist glutinous exudation.

Tobacco, to be good, must have all this gum driven out.

In Manicagua I procure tobacco that has all this gum "sweated" by the natural heat of the climate.

Only the dry, well matured leaf remains—the leaf that when I age for three years will give a cool, fragrant smoke—odorless and aromatic—that's the characteristic odor of my Pharaoh.

POLICE TESTIFY.

Continued from page 4.

On November 7th, witness was given an axe head by J. K. Cornwall, of the firm of Bredin and Cornwall, traders at Lesser Slave Lake. He did not know personally where it had been procured.

On November 9th he left the Lake for Edmonton, bringing with him the remainder of the exhibits, passing the scene of the alleged murder. The fire had been built in a crescent-shaped opening surrounded by grey willows. The bushes at one end of the fire at a height of 8 or 10 feet from the ground were bent over as if a cache had been built on them. These bushes were badly scorched and smoked.

On reaching Edmonton he had shown the bones and other supposed remains to Dr. Braithwaite, Hislop and Wilson, then placed them in envelopes and left them at the barracks here.

Witness afterwards went to British Columbia and at Nelson procured a page from the register of the Lake View Hotel which was put in as an exhibit. He also put in several cheques secured from the Bank of Commerce here.

Most of the articles referred to in the evidence were produced by the crown and identified by the witness. The supposed remains of the body were not examined, pending the arrival of Prof. Primrose of Toronto, to whom they were sent for examination.

Mr. Biggar for the defence, cross-examined the witness on several points, after which Constable Low was called.

He corroborated the story of Sgt. Anderson as to the visit to Moran's house when the prisoner had been told the story which the Indian had been circulating and of the second visit when he was placed in custody.

Prisoner had told them on the first visit that he had no partner but that he had overtaken a man a few days before on the trail who had remained with him until "his reserve was reached and had left the following morning for Sturgeon Lake. When the prisoner was arrested, he had shown the police a bundle which he said contained his baggage. On searching the prisoner at the barracks a number of articles were found which were inventoried. Among them were three small keys. The hearing was then adjourned.

KING'S STORY TOLD TO CONSTABLE LOW.

This morning's evidence continued with Constable Low in the witness box. His story was chiefly relating to what the accused King had told him on the way to Edmonton from Lesser Slave Lake. He, in company with a special constable, were bringing the prisoner and his supposed belongings down to Fort Saskatchewan. It is about an eight days' trip coming from Lesser Slave Lake to Athabasca Landing by water and from there to Edmonton by trail. When the party were between Athabasca Landing and Edmonton they stopped for a night at "a hostelry called 'The Eagle Place.' While there the witness says that King was talking quite freely with another man and so he took him away out to the "bank house." Here King told him the following story: "I was in Salt Lake City last summer but left the latter part of July coming up into southern Alberta on an excursion. I stopped at Raymond and also Lethbridge, finally reaching Calgary. As I was walking around the depot at that place I met a man who engaged me in conversation. We talked for some time, he asking me if I would like to go up in the Northwest trapping. This I decided to do, so we came up to Edmonton together. There we 'hipped in' and bought an outfit and started north for the Peace River country." "What was your partner's name," asked Constable Low. "I am not sure about the last name, but I think it was Hurdon, Ed. Hurdon," replied King.

Resuming the prisoner said: "We traveled together until we reached Lesser Slave Lake, when the man that was with me changed his mind and said he wanted to go to British Columbia. So I bought his share of the outfit, paying him \$115 for the same. Then he started for British Columbia, going by the Sturgeon Lake trail. This was the last I saw of him."

Witness said he brought the prisoner to Edmonton, and in company with Corporal McLeod, took the flesh specimens which had been found in the ashes of the old camp fire, to Dr. Braithwaite, who called in Drs. Hislop and Wilson, who helped him prepare the same. Then witness

visited several places in Edmonton looking for evidence among which was the Edmonton Hotel. Here he found the names of C. King and E. Hayward together on the hotel register, also that there were two trunks stored there marked with the names of the same two men. These trunks he found could be opened by two of the keys found on the person of King and previously brought up in the evidence. The cross-examination could not in any way change the evidence of Constable Low.

Inspector Strickland, commander of Edmonton post R.N.W.M.P., was called on the stand and testified to the delivery of the prisoner and luggage to him by Constable Low. How that in looking over the bedding of the prisoner King, he detected some dark spots or stains. These, upon careful investigation he believed to be blood stains and became more thoroughly convinced by finding a number of hairs sticking to one of the cloths. These stained spots the witness, in company with Sgt.-Major Emery and Corporal Rothwell, cut out and sealed up in envelopes afterwards giving same to Constable Reebert.

Sgt.-Major Emery was called and stated that he had had charge of all the exhibits brought to Fort Saskatchewan. That when the bedding supposed to belong to the accused was brought there, with the help of Corporal Rothwell he took same to a room used for storing such things and to which he alone had the key. He tells the same story as Inspector Strickland as to cutting out the supposed blood spots and claims that no one was where these things were kept after they were delivered into his care.

Corporal Rothwell corroborated the story of Inspector Strickland and Sgt.-Major Emery exactly.

Alexander Moostos, the son of the chief of the Indian reserve, told the court about finding a piece of skull bone in the camp fire.

At this stage the court adjourned until two o'clock this afternoon.

THE OPERA.

With every seat in the house occupied and many turned away, there not being room, the Edmonton Operatic Society again presented the two popular operas, *Cox and Box*, and *Trial by Jury* last night.

In the former play the parts are carried by Messrs. Barford, Stretchbury and Kelly, who went through their respective lines and songs in a way that many professionals might envy.

In the latter play, *Trial by Jury*, Mrs. A. H. Bennett, as the plaintiff, in a "breach of promise" suit, won the applause of the large audience by her splendid rendering of several beautiful solos. Messrs. C. K. Fillmore as the judge, T. Kelly as the defendant, A. MacDonald, counsel, W. A. Storey, usher, and Caisley as foreman of the jury, all sang their parts in a splendid voice, many receiving very hearty applause.

That the evening was enjoyed by all present there was no doubt.

Mr. J. K. Cornwall, of Lesser Slave Lake, gave a rather unique theatre party, having present Chief Moonstos, of the Lesser Slave Lake Indian reserve, who, with about twenty-five of his braves, listened to the entire performance, applauding with the others when some more than usually good song was rendered. After it was over, Chief Moonstos (a cow) expressed himself in his picturesque way as more than pleased, it appearing a wonderful thing to him and his simple Indians.

These same operas will be rendered again this evening for the last time and to all appearances there will be another large house.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for surface and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2800 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for mining location. A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500 by 1500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein. The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, and additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locater may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and metallic copper in the Yukon Territory, on areas not exceeding 160 acres. The patent for a mining claim will provide for the payment of royalty on the sales not to exceed five per cent.

Placer Mining, Manitoba, N. W. T., excepting the Yukon Territory.

Territory.—Placer mining claims are generally 400 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river, claims for either bar or bench, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the alluvial bank but not exceeding 1,000 feet. Where a stream power is claimed 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T.—excepting the Yukon Territory.—A free miner may obtain only two licenses of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The licensee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the licensee may dredge to high water mark on each alternate leasehold.

The licensee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six licenses of five miles each may be granted to a free miner for a term of twenty years, also renewable. The licensee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by a station on the first day of August, in the year of the date of the lease.

The licensee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All water placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase and free miners may work their claims in partnership by filing notice and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be suitable for placer mining, and does not include within its boundaries any mining claims already granted.

A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all hydraulic mining, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery or equipment to be prospecting, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery as area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

I TAKE extreme care of every leaf of tobacco that I buy. Ordinarily a "hand" of tobacco is soaked in water when it is received—I simply moisten the leaves in such a way as to only slightly dampen every part of every leaf. By this means the strength of the tobacco is not impaired—is smoking quality—fragrance and pungent deliciousness, is conserved to the smoker intact.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting § 22, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situate, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence satisfied by such person, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent,

countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence on the first homestead, if the second homestead is in the vicinity of the first homestead.

(2) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence on the farming land.

The term "vicinity used above is meant to indicate the same township or an adjoining or cornering township.

(3) A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 20 acres subtenanted.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon the first homesteads to entitle them to patent on or before the 25th June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may be again opened for settlement.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at an Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for settlement.

For further information, in charge, as to expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Northwest Territories, and Manitoba, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—In addition to Free Grant
Lands to which the regulations above
stated refer, thousands of acres of
most desirable lands are available for
lease or purchase from railroad
and other corporations and private firms
in Western Canada.

Wheat has reached the \$1.06 mark in Winnipeg, \$1.19 1-2 in Minneapolis, and American millers are buying all the Canadian western wheat they can get hold of for milling purposes. The farmers of the Northern States have their eyes turned on this side of border to get their seed wheat. The last item alone means about five millions of bushels. All this will certainly influence the price of wheat, consequently the price of bread stuff.

Come and buy your flour from us, we have

Qualities are right. — Quantities are large.

Prices:—

Our general stock of groceries is complete in all lines and all fresh goods. We invite the lovers of a good cup of tea to try our new lines of Ceylon. Just arrived from the Ceylon Gardens. No need to praise their qualities. They show it in the cup. Remember our motto:—"Small margins. Big turn over."

For Liquozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquezone; the highest price ever paid for similar rights on an scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ disease with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it as we do, and millions of others do. You will use it not only to test, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Liquozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring expensive apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does not oxidize, does not contain alcohol or oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

not kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Ligozone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

NOTHING FURTHER

IN THE CABINET SITUATION

Rumors of Fielding's dissatisfaction with the financial terms. Modification of school clause possible.

Bulletin Special.

Ottawa, March 2nd.—No further developments have occurred in the cabinet troubles. Rumors of the dissatisfaction of Mr. Fielding, Minister of Finance are now connected with the financial terms. It is generally recognized and it is believed that in case for any reason the present bill did not go through as good financial terms could not be secured later on. There is talk of modification of the school clauses but nothing definite has been decided yet. C. W. Cross left for Edmonton tonight.

R. B. Bennett of Calgary is here also M. Annable defeated Conservative Candidate in West Assinibois.

EDMONTON JUNIORS WON

The Edmonton juniors got away with the Calgary team last night with a score of 5 to 0. The ice was soft and the game not as swift as it would have otherwise been. The line-up was as follows:

CALGARY	POSITION	EDMONTON
McCall	goal	Matheson
Watson	point	Haskill
Dalton	cover	Johnston
Thorpe	rover	Gauvreau
Moore	centre	Clarke
Belamy	L. Wing	N. Sanford
Williams	R. Wing	C. Banford

The Calgary boys brought up Thurston as spare man and Max Williams as mascot.

W. Banford refereed the game, giving good satisfaction.

The visitors play the Strathcona juniors tonight.

Superfluous Hair

Removed by the New Principle

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissue under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it today to DE MIRACLE CHEMICAL CO., 23

Wall Paper

For Season 1905.

No previous collection has contained such attractive features as that we now ask you to call and examine: it is the cream of the celebrated product of the

Watson Foster Co., Ltd., Montreal.

We have bright, pretty florals and stripes for chambers; magnificent hall, dining-room, store, and office decorations; and a wide choice of very beautiful

Parlor Hangings

in soft shades of creams, greens, blues, etc., with silver and gilt treatment.

Altogether, our range outclasses any previous offerings in value and effect.

Our cheap papers are good and our good papers are cheap.

So if you have any walls not recently papered, let us show you how easy it will be to produce a beautiful result at comparatively small expense.

We have procured the services of Mr. A. Desilets, an expert at paper hanging, who will guarantee any work entrusted to him.

Leave your orders with us, and we will do the rest.

Don't forget that we are headquarters for all kinds of

House Furnishings.
